Mobile App UI Screenshots (Part 1)

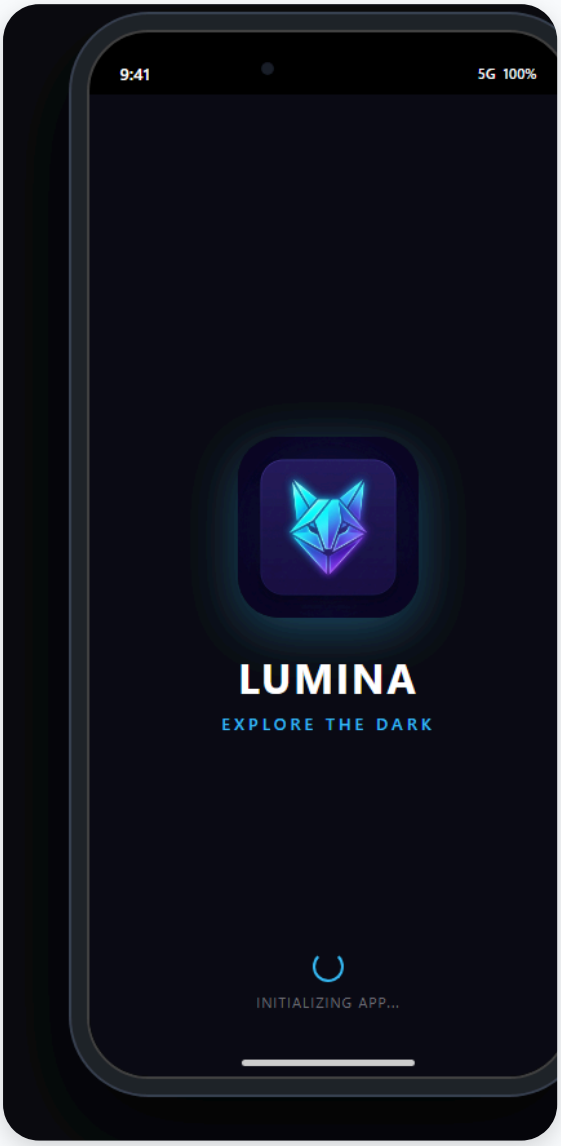

Custom Startup Splash Screen & Home Screen (Hy! I am Tayyab)

UI MOCKUPS

MOBILE SCREEN DEMONSTRATIONS

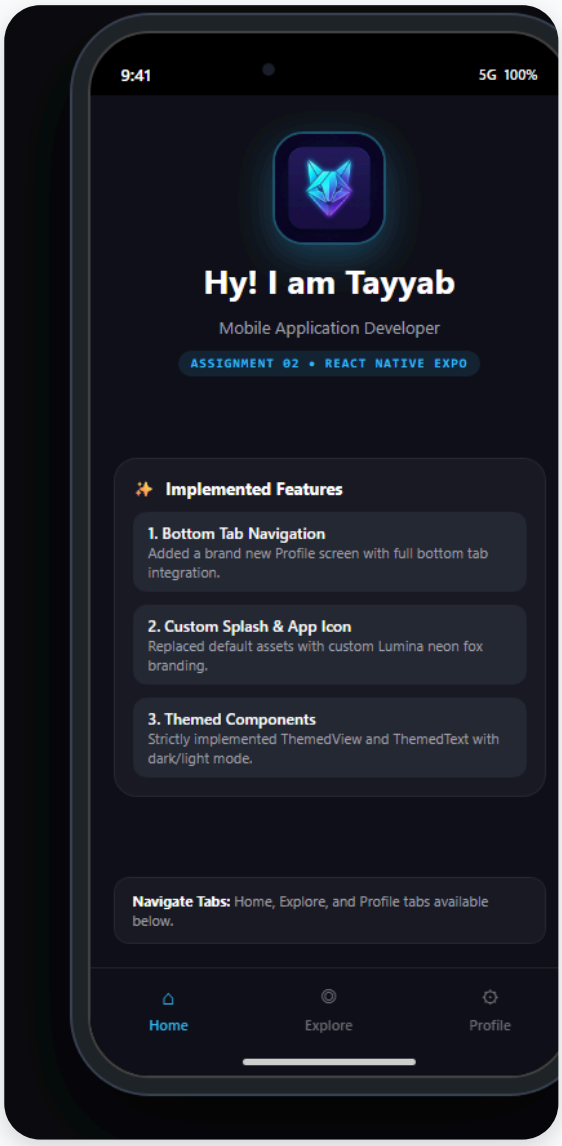

Screen 1: Custom Splash Screen

Custom neon geometric fox branding with #0D0E15 theme background

Screen 2: Home Screen (Index)

Personalized intro banner, feature highlight cards, and bottom tabs

Implementation Highlights for Screens 1 & 2:

- Replaced default splash screen image with customized high-resolution design in app.json and assets/images/splash-icon.png.
- Customized startup splash screen overlay in src/components/animated-icon.tsx with matching background color #0D0E15.
- Home Screen extended from Assignment 01: personalized with "Hy! I am Tayyab" and clean feature overview cards.
- Integrated bottom tab navigation with custom template tab icons [Home, Explore, Profile].

Mobile App UI Screenshots (Part 2)

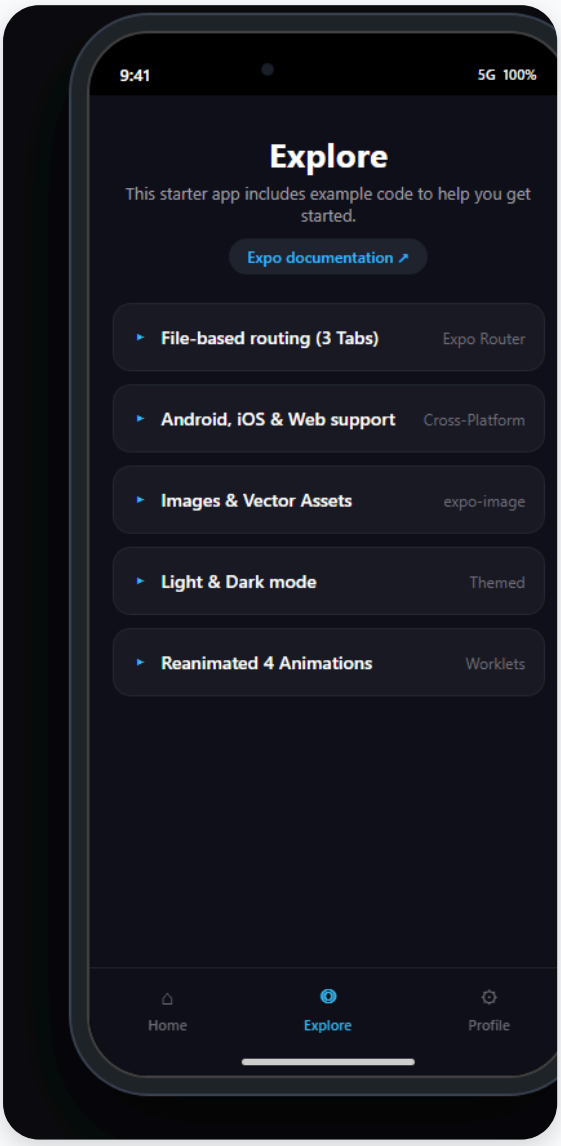

Explore Screen & Newly Added Profile Tab Screen

UI MOCKUPS

MOBILE SCREEN DEMONSTRATIONS

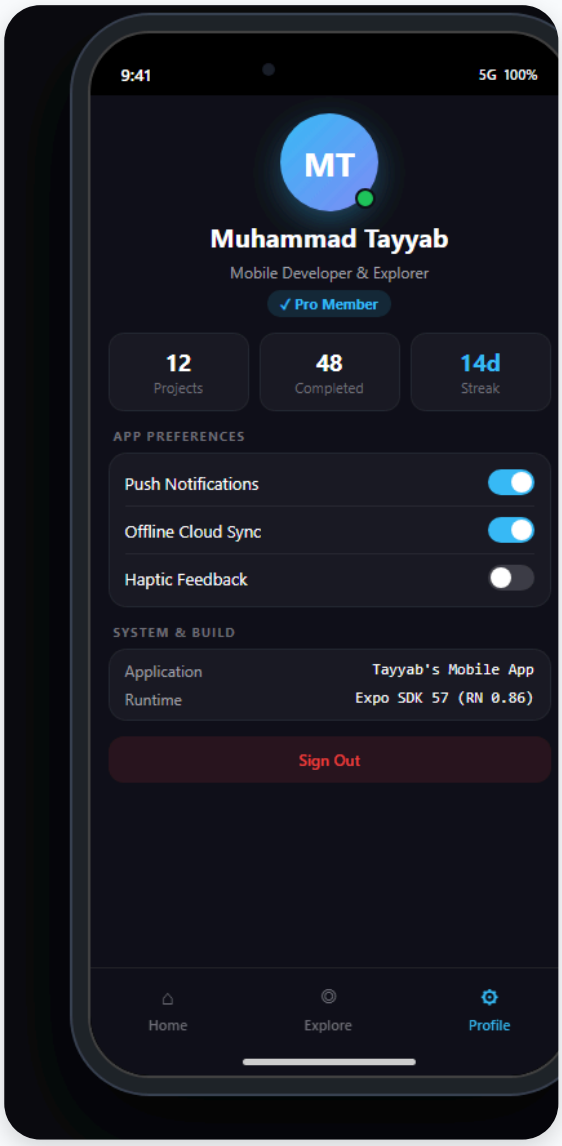

Screen 3: Explore Screen

Collapsible feature explanations updated for 3 bottom tabs

Screen 4: Profile Tab Screen (NEW)

Developer profile, stats grid, interactive switches, and system info

Profile Screen Architectural Highlights:

- **Strict Themed Component Usage:** 100% built using ThemedView and ThemedText for automatic dark/light theme switching.
- **Meaningful Application Content:** Displays Muhammad Tayyab's developer credentials, quick project metrics, and preferences.
- **Interactive Controls:** Live toggles for Push Notifications, Offline Cloud Sync, and Haptic Feedback.
- **Quality Verification:** Codebase verified with npx expo lint (0 warnings, 0 errors) and npx tsc --noEmit (0 errors).
