2. VS CODE PROJECT FOLDER OVERVIEW

Developer: Shahzaib Jatala (shahzaibasifjatala@gmail.com)

Mobile App UI Screenshots (Part 1)

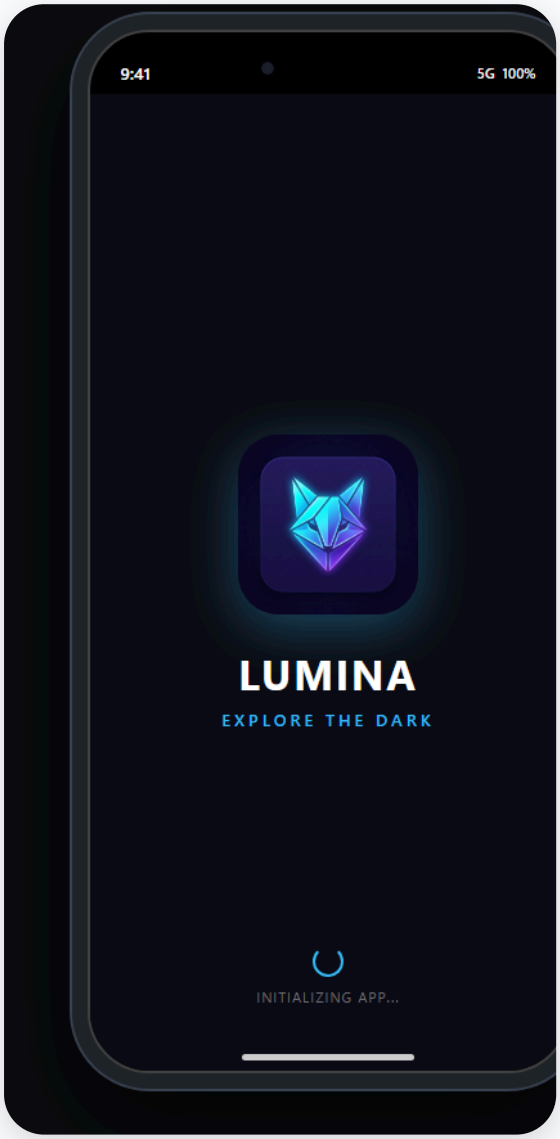

Custom Startup Splash Screen & Home Screen

UI MOCKUPS

MOBILE SCREEN DEMONSTRATIONS

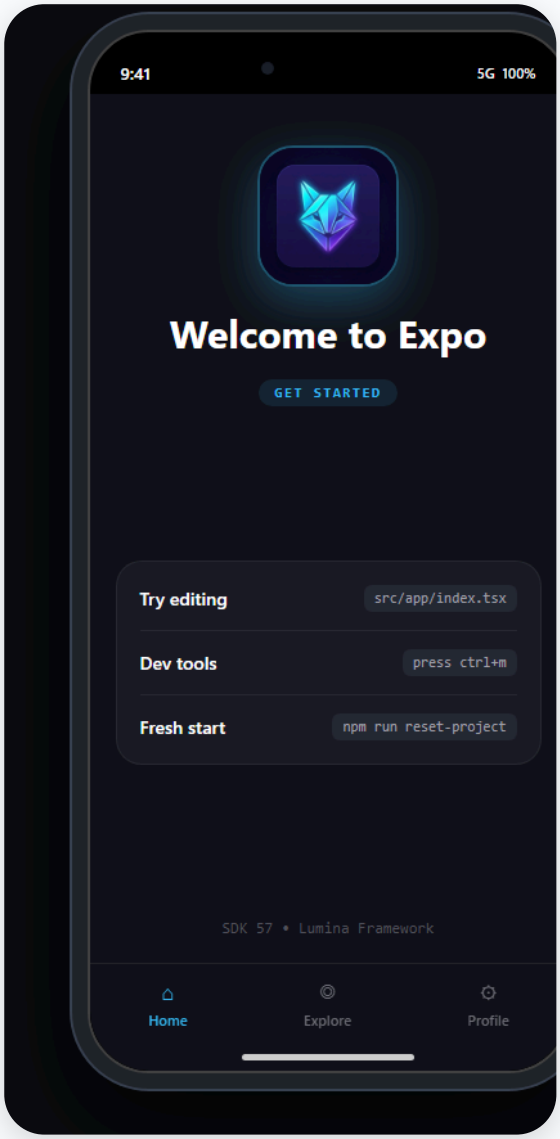

Screen 1: Custom Splash Screen

Custom neon geometric fox branding with #0D0E15 theme background

Screen 2: Home Screen (Index)

Hero banner with custom animated logo, hint rows, and bottom tabs

Key Features Implemented on Screens 1 & 2:

- Replaced default Expo splash screen icon and adaptive foreground/background icons in app.json.
- Customized startup splash screen overlay in src/components/animated-icon.tsx with synchronized color theme.
- Refactored src/components/hint-row.tsx from standard View to ThemedView.
- Configured bottom tab bar in src/components/app-tabs.tsx displaying [Home, Explore, Profile].

Mobile App UI Screenshots (Part 2)

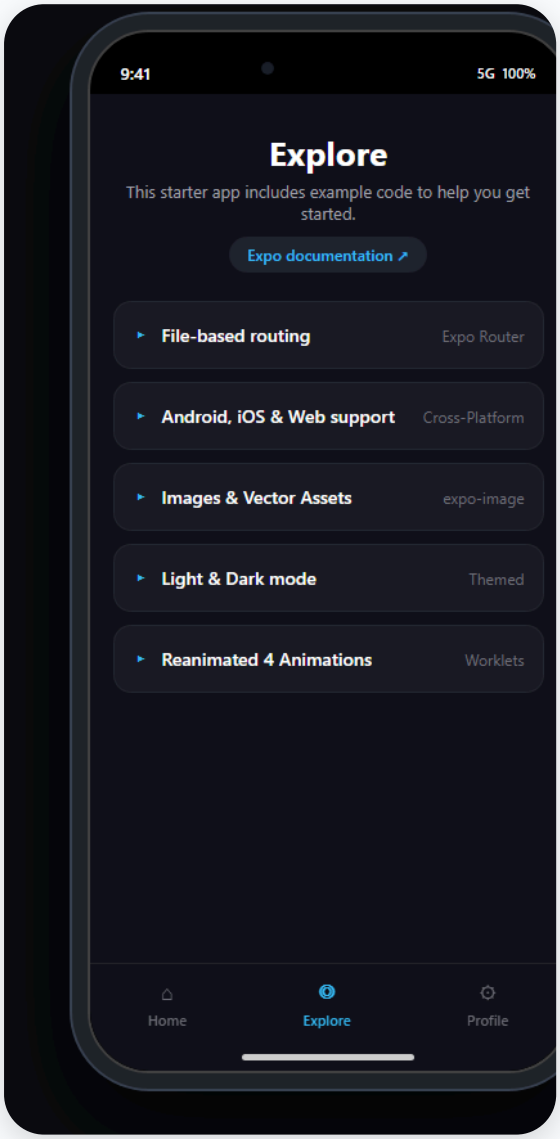

Explore Screen & Newly Added Profile Tab Screen

UI MOCKUPS

MOBILE SCREEN DEMONSTRATIONS

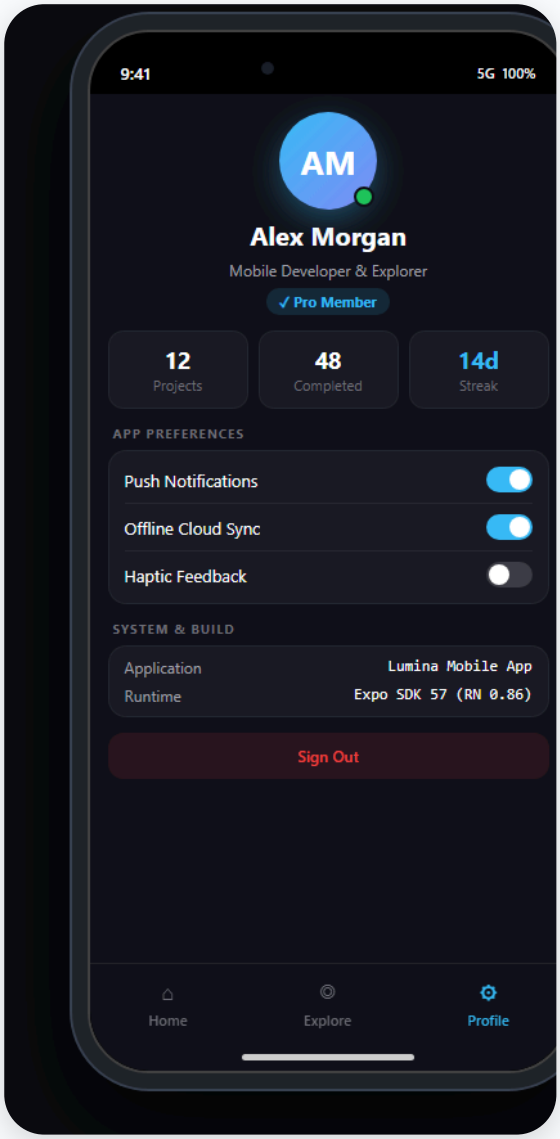

Screen 3: Explore Screen

Collapsible feature explanations built with ThemedView & ThemedText

Screen 4: Profile Tab Screen (NEW)

User stats, interactive switches, account security, and build details

Profile Screen Architectural Highlights:

- **Strict Themed Component Usage:** 100% built with ThemedView and ThemedText with automatic light/dark mode adaptation.
- **Responsive Insets:** Utilizes useSafeAreaInsets and custom contentInset for notch & dynamic island safety.
- **Native & Web Tab Support:** Custom vector tab icon added in assets/images/tabIcons/profile.png with @2x and @3x densities.
- **Interactive Controls:** Live themed switches for push notifications, cloud sync, and haptics.
